94	Encourage medium industry. 20 to 120 employees
95	Encourage industry to situate in powell river. Educate youth regarding existing current and future PR employment opportunities.
96	Attract more industry and promote the quality of living in a coastal community. Try to attract more technical jobs for our young people
97	working together and thinking outside of the box
98	Offer incentives for other industries to come here. Make building sites available. Give land tax breaks for new industries
99	Answer is obvious!
100	Encourage entrepeneurs, especially in the tourism business.
101	- employers should create full time positions with benefits to create stability for people trying to patch together a living with part time jobs
102	encourage small business to supply essential foods and other housholder needs
103	look at the person who is applying as a person
104	Training avbailable locally to fill local job opportunities.
105	Support local biz & keep local earnings circulating in town Access government funding for job creation & small-business development Biz training
106	Develop tourism industry, fight high cost of ferries.
107	Perhaps another survey to see what employers in Powell River are looking for and then provide the training at VIU for these people.
108	work to make community more accessible with lower ferry fares work to make citizens feel confident about the future and then they may invest more
109	Get creative, take a chance, and go big.
110	Reduce the cost of business licences to stores or increase the cost of home based business licences. Too much disparity at present.
111	Create more sustainable jobs
112	Industry, high paying skilled employment
113	Open up avenues for the less connected folk in town
114	reduce home taxes so people aren't living to work
115	The mill and housing development provide neither sound economic development or stable jobs. Look outside PR for new types of businesses/employers.
116	Improve tourism, encourage smaller business and entrepreneurs
117	remove barriers
118	Taxes on small business owners are very high. Cheaper to operate a business in Nanaimo. Lower small business tax. Make Catalyst pay their fair share
119	Build a prison
120	draw other industry and encourage small business growth
121	Apply for employment grants for low income persons, some of our tax monies go to fixing boulevards, cleaning sidewalks, painting bldgs, enhancing PR
122	Vote differently in the next provincial and federal elections Pay more but insist on no more contracting out, give the jobs to PR companies.
123	have employment that provides a sustainable and living wage
124	No truly innovative thinking in this community. The City is a problem because staff do not have the expertise to recognize the possibilities.
125	Infrastructure- buses, housing, child care so poor can work; Encourage health, soc service, tourism + labour (factory, manufacture, farm, textiles)
126	we need work that will attract young people and young families into the community - home based businesses, arts, and cultural,

	educational
127	educational. Support for locally develped businesses esp. those that are environmentally responsible
128	Get rid of the mill and give the same tax breaks that catalyst is getting to attract new technology. Battery, solar, wind powered devices.
129	to continue to build a sense of community, through special events and a continuing beautification of the area
130	Actually do something instead of more studies, Attract small industry; a problem with transportation costs Build on retirement houseing, health care
131	encourage small business
132	more summer employment for students entice new alternate business stop concentrating on making PR a retirement centre- augment with other industry
133	research the demographics and determine the specific wants and needs.
134	job wages need to equal cost of living and that is a big gap, especially with such high rents
135	lobby the province and the feds to provide funds for skill development and provide incentives to new business to relocate here.
136	They need employment for younger people with families. They spend a lot more money in the community that seniors do.
137	Reduce the size of govenment put the tax dollars back in the hand of the consumers it's that sinple
138	support innovative community building long-term jobs creating goods or offering services
139	Become a model community to educate the world out of the New World Order.
140	Local training at professional level (this keeps the trainee from going elsewhere and possibly never coming back.) Health care workers etc.
141	see: answer to quest. #5
142	Sustainable communities need a work force to keep everything else going. Young people leaving for work! so how do we keep them here and grow.
143	offer excellent infrastructure/community recreation/health services/etc.
144	Quit turning people away who have good ideas to start a businesse in town
145	New vision of selfsustaining industries and services based on true assessment of global and local limits. Bold leadership to make the vision real.
146	Encourage tourism, especially in the shoulder and winter season.
147	The most important thing is to recognize that the old model for the economy is not working and it is only a matter of time until there is a collapse.
148	Focus on Eco/Green jobs. Tourism- stop logging the Sunshine Coast Trail and Canoe Route. We were the Cultural Capital of Canada once, build on that
149	Perhaps a committee could research & provide creative suggestions of using Powell River assets/resources to support the basis of employment.
150	Pray that the mill doesn't close. Or bring in more businesses.
151	diversify,mill is OVER so get OVER IT!!!
152	support for small business and real estate development
153	Increase wages to give people a cost of living increase commenserat to gas, ferry and food increases

156	Continue to offer incentives for med/large business to relocate here. Look to Asia for opportunities.
157	Expand the hospital services, the V I University, Academy of Music, PRACL and encourage tourism through protecting our mature forests and streams.
158	To develop a long term plan which can support SA recipiants to move from poverty to self dependency / independency
159	same as Q5
160	Ensure newcomers are treated equally when applying for jobs! Should not all be who you know in PR!!
161	Fair wages
162	Realistic assessment of resource based vs. "green happy" jobs. Both are needed.
163	Lack living wage jobs for young and mid-career workers. Our chances to attract new industry are fair if we drop ferry costs. Drop NIMBY.
164	More skill training. Promote going for university degrees. Don't look for one magic solution.
165	Provide a land based connection to Canada.
166	don't rely on big projects or business to supply work.
167	I think that question is the one that nobody seems to be able to answer.

	130	New library! Community centre.

131	Good
132	Raise consciousness about the need to have a higher level of literacy to compete in today's world. Enlarge and upgrade library.
133	Build a functional library
134	more government funding should be spent on alternative types of education.
135	Improve the library Keeping kids, especially first nations, in school Identifying homes with problems
136	We are not a socialist country. There is only so much tax base and not enough income from jobs. It's a bit of a catch 22 but we need more industry.

1	Repeal the Coastal Ferry Act Make the ferry same as the highway and charge or don't charge but charge intercity bus service	the same for eac	ch Improve	
2	Ferries are part of our highway system and as such Government should treat them that way			
3	In PP, make bus use realistic. Vote NDP to restore ferries to public asset and reduce fares.			
4	smaller buses.why do you need forty seats when so few people use the losser cruiser			
5	Make the government understand that reasonable ferry rates are vital to our well-being.			
6	continue to push the BC Gov to look at the ferry coastal act and make much needed changes that reconi Affordability Key	ze the ferrys as o	our high way.	
7	Need a safe, well lit walking/biking path between Westview and Townsite and going up into Wildwood. Subsidized bus passes for low income people.			
8	more public transit, more routes, more buses, set up car pools, ride-shares for people north and south of	f town		
9	get the cost of the ferries back down to a reasonable rate			
10	have the ferry docked in PR and residents should only have to pay one way. More bike lanes and awareness for safety with drivers and bikes.			
11	Offer extended handibus service

15	Reduce ferry fares Upgrade the road to Lund Extend Manson Ave, through to highway 101

20	Is reducing car use necessarily the best goal? I feel it's way over-rated.			
21	REsident cards should be used for athletics and events that take place out of Powell River			
22	we need to have a ferry corporation that understands the uniqueness of coastal communities, and have	fair rates.		
23	increase ferry schedule- especially in summer & holidays - reduce ferry fares			
24	Work with gov to control ferry costs Ferry highway pass for locals			
25	Give us a newer faster ferry, a special rate for residents, cheaper air fares			
26	-we need more bicycle lanes/routes -there should be a designated walkway/bike lane from townsite to V	Westview along N	larine Ave.	
27	subsidise the ferry, as in the past - our highway - you know the drill/reasons			
28	better public transportation, control ferry costs

41	People living outside of town have limited transportaion choices. No bike lanes- unsafe to ride beside highway.
42	Subsidize ferry for all residents more bus routes with more small busses. Rural bus schedual is good for very few certainly not for
	people who work
43	Encourage cycling & walking. Offer cheaper prices for alternate transportation.
44	keep ferry prices affordable, provide bus service to Vancouver, encourage local shopping and retail service here
45	Affordable ferries and air transport. Development in the City and the Region which recognizes the importance of transportation.
46	shake up the whole damn system. REevaluate whether the ferries are a highway or a money making sector.
47	Ferries should be public not private - costs s/b lowered. More public transportation of all kinds (small buses and car-sharing).
48	Need to lobby government to keep prices affordable. Coastal Ferries Act has to go.
49	Make sure our concerns are heard and responded to.
50	We need the Governemnt to REDUCE ferry fares for our residents. This is our HIGHWAY and we should not have to go broke just to go to the island
51	Continue to lobby government to accept that our community should not be in a user pay situation. We need provincial support.
52	Don't move to PR if leaving regularily matters to you, quit helping everyone shop out of town, take care of each other, don't count on gov't
53	Ferry fares need to be held in check, pensions and pay rates are not going up at the same rate as ferry fares.
54	ferry prices are getting too high for frequent travel, bus service not used to its potential,
55	Mass transit should be free, more buses, reduce ferry fares, good luck!
56	I think the ferry system is a part of BC highways and should be free like all inland ferries
57	lower ferry costs
58	Realise that post-modern civ is based on the biz of movng people and stuff all over the planet and that this is the most costly idea in history.
59	bike lanes/bike lanes
60	Create bike and walking lanes from Lund to Saltery Bay along hwy.101 Almost all communities have this - why don't we? Good for locals and tourists.
61	make ferries part of the highway system and make fares affordable
62	Fire David Hawn
63	Integrate transportation for the Sunshine Coast, Powell River, Texada. Ferries, bus and shuttle services.
64	Better, and more reliable, service at a reasonable cost.
65	Allow for kayak docking and launching at the new terminal.
66	Wider divided sidewalk for walkers/bikers on Joyce. Put BC Ferries back in public hands with a return to reasonable fares.
67	provide bikes paths and lanes so all the cyclists are SAFE, all over the region especially regional areas! smaller more frequent buses
68	Can't the buses be generally smaller? I do not see anyone encouraging nor creating alternates to cars.
69	BC Ferries needs to be the same as inland ferries which are part of the highway system and free the rising cost of BC ferries will kill PR in time
70	More bus routes, more frequent, decent service to rural areas. Real bike lanes, not just lip service Good luck on ferry costs, given rising fuel price
71	Lots of small, affordable buses. Use "people mover" vans, not large, under-utilized buses. Make all buses bike-friendly. Add commuter routes.
72	lobby the provincial govt to chnge their policies on privatizing the ferry system
73	Tolls on all major highways in BC to support free ferries Parking ares next to pedestrian zones
74	- road to the interior - improved rural bus system
75	A bus to Vancouver island on a regular basis. Lower ferry prices.
76	Reduce ferry fares. They are a barrier to bringing new people into the community
77	But my fingers are crossed.
78	Ensure communications with BC Ferries are maintained. Lets look at ways to improve services on the ferries. We need to have more curteous staff
79	stop the empty buseseither get smaller buses or open the service to private businessesdon't like to subsidize
80	Support/stimulate public and cooperative transportation modes. Advocate recognition of ferries as part of provincial highway system.
81	we need to make the ferries our highway and not have to pay to go off the mainland.
82	buy locally - encourage people to create a stronger community for all kinds of reasons. Health care subsidy is great.

83	Ferries are our highways and need to be recognized as such. reduce cost or we will lose too much due to cost.
84	Pressure govt. to keep ferry cost down. Develop more bike trails to encourage people to ride instead of drive. Have smaller buses running more often.
85	Consider ferry and bus alternatives
86	SUbsidized at higher level by government
87	Provide reasonably priced ferry service as part of our highway system
88	Ferries are a HIGHWAY SYSTEM. Government should run it as ahighway dept and make it PUBLIC!! Shutdown the ferry corp and fire the management
89	buiild bridges
90	Ferry rates-down. PR to subsidize the Malaspina Coach Lines -need to get to Texada from Van in one day. KD Air fares are too high for local residents
91	provincail gov't needs to be made aware & recognize small communities on islands cannot sustain their economies with rapidly increasing fares.
92	subsidized ferry fares for residents of communities which rely on themthey are our highway and we already pay highway taxes to the province
93	More services needed to the Island for appointments, shopping etc
94	the ferry is our highway, paying the rates we do is highway robbery, locals need a break on ferries
95	home berthing
96	Our community won't grow in a healthy and sustainable way without adequate & affordable access to medical care for everyone.
97	travel subsidies for the poor
98	Residents of Powell River or sunshine coast travell free.
99	Affordability and environmentally sound alternatives
100	ferry fares need to be affordable and the schedules need to improve. BC govt. needs to recognize ferry as our highway
101	CHEAP FERRY FARES! Subsidize if necessary. Texada residents can't afford the ferry to do anything in PR, arts, culture, sports, education included.
102	ferry costs must be cost efficient for all; reduce unneccesary bus runs. The bus often runs with 2-10 people and sometime empty-can we economize?
103	Relocalization of all activity we can to reduce need for long distance transport. Bicycle. Walk. Car-pool. Hitchhike. Inspire personal interest.
104	wont be an issue when there's no oil except in the water For now, public transportation free, huge taxes on cars and trucks, Join the outrigger Canoe
105	Reduce ferry fares. Bring back the ferry care for lower ferry fares for people living in Powell River. The ferry is apart of our highway.
106	Ferry prices are a major concern for residents and those considering living in powell river
107	Commuter cards for Powell River residents, better ferry service, or build a toll bridge or tunnel, cheaper air flights
108	subsidize
109	ROAD & Bridges to interior and bridges to Island. Bridges would be toll bridges until they are paid for then toll eliminated
110	locally-improve the bus service and increase ridership with incentives
111	lower the ferry rates
112	Some roads now that are being bombarded with heavy trucks and can't handle it. The ferry service is too expensive and major changes are needed
113	get a bridge or road to mainland. ferries are holding us hostage especially is on a low income
114	make the ferries affordable local cards for residents
115	Treat the Ferries as part of the highway system and subsidize costs accordingly to keep fares affordable! We don't want ot wind up like Ocean Falls!
116	Make main roads bike friendly. Example: Padgett Road is a good route to get in to town from the south, but is VERY DANGEROUS for someone on a bike
117	People are resourceful: when motivated to get somewhere, they'll usually find a way. Set up carpool website & tips for screening riders/drivers
118	Reasonable ferry fares. There is assistance for medical appointments, we have ferry elevators that do not work and affect people with mobility issues.
119	Widen roads for bikes, meet with governmnet re high ferry costs or look at road options
120	No cost for Ferries and road access to and from Powell River.
121	work with government to get ferry fares lowered create bike paths bus scheduling more often especially during peak hours
122	keep late night busing even if stats don't pay for it. Run a bus to comox/courtenay one day a week mutually (with Comax/Courtenay).
123	Build a bridge to Sea-to-Sky highway
124	The ferries are our highways and everyone should be able to get on a ferry and to their destination without exorbitant fees and ridiculous schedules.
125	Put ferries back in to gov't ownership. Dept of Hghways is doing a great job with inland ferries.

126	Provincial government needs to contribute more money to the Ferry Corporation so fares can be lowered
127	CREATE JOBS SO THAT WE CAN PAY OUR WAYNO FREE RIDE
128	Affordable ferry serviceor a road to Vacouvermore ferries to the islandferries should be a service not a profitable enterprise
129	joyce avenue needs crosswalks at places between traffic lights. reduce ferry & bus fares for residents & low income
130	1) Bicycle lanes!! 2) Recognize that ferries ARE our highway. Remember the cost of forging road to Whistler? Who paid?
131	More safe bike lanes Ferry travel already too expensive for most people. De-privatize it and make it part of highway system.
132	more walking/bicycle paths and sidewalks, better bus service, public transportation to major centres
133	designated alternate transportation routes. a realistic free inner-city transportation service with appropriate sized vehicles (demand)
134	Put in a road to lower Sunshine Coast to eliminate one ferry from our trip. We are often held hostage in PR (poor weather, break downs, etc.)
135	bridge
136	If ferries bother you get the hell out
137	Ensure public transportation (bus) service is available at hours that work for seniors, employed persons and students.
138	A sailing ship to Vancouver, with solar back-up!
139	More private businesses to provide to and from services. More buses north and south of town. Ferries berthed in Westview overnight.
140	provide better transit services with smaller buses The ferry is our highway and we send \$ to BC and Fed and what is our return, set up car pool
141	Once the City has failed us miserably
142	Morer bus service, bicycle trails/lanes/routes, Fund person to create Ride-share program - in + beyond PR
143	designated bike routes and paths both in town and north and south along highway and through valley subsidize the ferry as part of the highway system
144	More emphasis on safe walking and cycling routes Continued pressure on BC Ferries
145	The ferry is part of the highway !!!!!. We should not have to pay!!!! There is no road. The Kootney lake ferry is free!!!!!
146	The ferry to earls cove should dock in Powell river. Lower ferry fares for residents.
147	keep ferry fares to a minimum, this would help to improve the quality of life for residents
148	Lobby politicians to return BC Ferries to Public Service, and to reduce fares. Try to have the ferry schedules work better with Comox Airport.
149	Ferry cost reduced Bridge on the Gigson end then only 1 ferry and and a lot more flexible with time would open up Powell River A road out
150	we need to keep ferry prices affordable to encourage tourism and allow residents out of area access
151	BC Ferries has to be made public once again. The ferries are part of our HWY system and should not be for profit
152	Locally, increased bike and walking options, to Vancouver Island, a ferry system subsidized for affordability as is the trans-canada highway.
153	Free ferries for residents including businesses located in the community. Ferries are our highway! Safe bicycle paths along Highway 101.
154	Bus service is fair but #1 should be every half hour to get to appointments. I like isolation so no road but resident ferry reduction would help
155	lobby for the 1 cent gas tax to build the regional bus service and get the ferry corp to listen to us, bring back the resident card for reduced fares
156	Lower the ferry fares so it's affordable for everyone to leave town.
157	Ferry system is broken and only a road to the lower mainland will fix it
158	instead of hitch hiking have a local licensing system. drivers and riders are licensed, riders purchase tickets. Drivers exchange tickets for cash
159	re-nationalize public transportation
160	Better and affordable ferry services.
161	Lobby Prov. Gov. to return ferries to NON_PROFIT gov. control; lower ferry fares; stop fare increases; need Comox-PR ferry to stop on route at Texada
162	Change the BC Ferries Act. Make ferry service affordable, reliable, safe: under the direction of the Ministry of Transportation.
163	Accessibility. Or an alternate. BC Ferries monopoly - can we provide an alternative?
164	realistic ferry costs/part of highway not a profit centre
165	Establish that ferries are our highways and must be free. Establish cooperative and ridesharing ways of getting around. Increase public transport.
166	Build a road to Squamish.
167	Public transit, tax private automobile use in order for to pay for public transit
168	Have electric vehicles in our bus fleet, more linking of bus routes.
169	Buses that can be counted on, with only a short wait, until midnight. Promotional activities to get people to try the bus.
170	Reduce ferry costs!

171	- reallocate some of David Hahn's salary to help reduce ferry costs
172	lower prices
173	actually, the transit system is the best i have ever seen in a small town
174	affordable ferries
175	Create services willing to address this need
176	ferry cost should decreased for locals
177	Access to transportation according to community needs and not according to budget.
178	Continue to lobby at all levels of gov't.
179	The ferry service should receive government support and be considered as part of the highway, therefore almost free. Expand and lower cost of flights
180	Ferry Service negotiation to pay one way coming into Powell River, same as Sechelt People - cost is limiting people
181	Demand ferry costs figured as part of our marine highway not as profit for a private corp.
182	Make the ferries a part of the highway as they are in the Interior of BC. People who reside in PR should not be charged for using the ferries.
183	Get ferry fares reduced and increase public transit, especially north and south of town.
184	Road surfaces need to be safe for driving, walking & cycling. Ferry service must be maintained, perhaps subsidized.
185	Perhaps a private donation-funded community-run driving service to transport medical patients.
186	reduce the cost of ferries for residents of powell river
187	Build a overland road to Squamish. Increase public transportation options for people to get to and from their jobs.

190	much better ferry service
191	Affordable ferries Connecting schedules Keep our bus system
192	Be self responsible. Life costs. Get a job and live within ones means.
